

Dear Parents,

We are now accepting Parking Applications for the 2020-21 school year for the class of 2021 and 2022. Applications are now available on Family ID. Students must submit their application through the Family ID website. Link is available below and on the Bellarmine website. At this time applications will only be processed for next year's Junior and Senior class. Students must have:

- A completed application (Available online at <https://www.familyid.com/bellarmino-preparatory-school-activities/2020-2021-parking-application-2>)
- Must upload a copy of their validated driver's license (Instructional Permits NOT acceptable)

Though the parking lot should have ample available space, we strongly encourage carpooling during the 2020-2021 school year.

Students will not be assigned to a specific parking stall; rather students are assigned to a specific lot (A, B, C, or F). The cost for a carpool permit is \$90.00 while the single-driver permit will cost \$150.00.

The carpool application requires the "primary" driver to be a junior or senior in the 2020-21 school year and they must have a valid Washington State driver's license. Only one (1) parking placard will be issued to those students listed on the carpool application. If families wish to have multiple parking passes, they must purchase one for each student at the single-driver rate. It is essential to have parent signatures on the application.

Parking will be billed through student accounts. Applications will be processed in the order in which they are received.

Sincerely,
Cari Harrison
Dean of Students
